Image Plates:

With the different sizes of imaging plates, you can offer the best comfort to your patients.

Characteristic

- Portable: Small size and light weight ($\approx 1.4\text{Kg}$), more convenient to move among clinics.
- Time saving: Scanning in 3~4.5 seconds, higher time efficiency in daily practices.
- New photoelectric sensor: High speed, high sensitivity and small size.
- Aluminum alloy housing.
- Touch button design.
